

DIESTA

Fast-Track Premium Payments

Premium payments are the most
important source of revenue

Yet, they are the least innovated
and most manual area

Problem

Premium payments get trapped in complex processes

Data issues, multiple parties and varying formats make receiving premiums difficult

Excessive Work

Security, compliance and regulatory burden need to be complied with at all times

High Risk

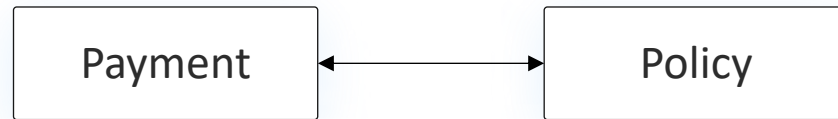

Premium payments take weeks to clear, slowing cashflow of critical revenue

Lost Opportunity

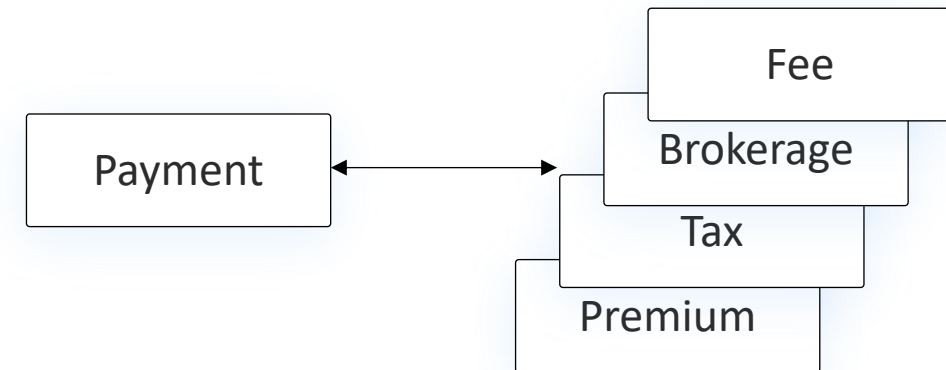

Situation

Diesta is the first custom built software for premium payments

How current software works

What premium payments look like

➤➤➤ Premium payments are multi-dimensional for receipts and payouts, current software is one-dimensional

Elevate your premium processes with a superior offering
