

FinanceMalta

FinanceMalta is delighted to be taking part in this year's BIBA conference in May, an occasion for us to share information about the exciting opportunities offered by the Maltese jurisdiction with its diverse and dynamic economy.

Malta has been at the forefront of innovation in insurance for decades, making a name for itself through its exclusive Protected Cell Company legislation – with all the efficiency that this framework offers.

InsureTech and innovation are at the heart of the national strategy for financial services, which already represents 9.5 per cent (by GVA) of the country's economy. As a result, the Mediterranean island has developed an experienced and established ecosystem for global insurers, captives and insurance managers, backed by robust yet approachable EU regulatory oversight.

As a Member State of the EU for 20 years, Malta offers full access to the Union, while its long-standing ties with the UK have made it the ideal bridge for companies there.

At our stand at the Manchester event (F78), thousands of attendees will be able to meet some of the island's most established insurance brokers and service providers:

Jatco <https://jatcoinsurance.com/>

WTW <https://www.wtwco.com/en-us>

MAMO TCV <https://www.mamotcv.com/>

Zenith Actuarial <https://www.zenithactuarial.com/>

Atlas Insurance <https://www.atlas.com.mt/>

FinanceMalta is proud to be supporting this event as a bronze sponsor.
