

The British Insurance Brokers' Association (BIBA) has chosen iprism as its High Value Home Insurance Scheme provider

24 April 2024

With an increasing number of policyholders moving into the High Net Worth bracket, there is an increasing demand for cover that goes beyond standard home and contents policies. iprism offers one of the most comprehensive high value home insurance policies on the market, including single article limits for jewellery, watches, art and antiques. It also covers identity thefts; home emergency and alternative accommodation for up to five years.

BIBA members can access the scheme via a dedicated webpage, or iprism's broker portal. The scheme is backed by iprism's A-rated, UK-domiciled capacity.

Mike Hallam, BIBA Head of Technical Services, said: "We are delighted to have brought on board this scheme with iprism. Managing the insurance requirements of high net worth individuals is important for both personal lines and commercial brokers alike. Having the opportunity to access a quality scheme for their customers helps demonstrate the value their services offer."

Ian Lloyd, CEO of iprism added: "We've invested in building a team of highly skilled underwriters, committed to supporting our broker partners and their high net worth clients. Through this new scheme, we're proud to bring our offering to BIBA's members, and provide them with the speedy service, quality product, and technical underwriting expertise iprism has become renowned for."

iprism is also a leading provider of Liability, Property and Commercial SME insurance to the UK market.
