

You didn't start a business because of your love of compliance. We did.

We're delighted to be back in Manchester for this year's British Insurance Brokers' Association (BIBA) Conference on the 15th – 16th May.

Please come and say hello to the UKGI team on **stand G81** and find out more about how we help and support clients to overcome their compliance challenges as well as evolve their talent management and training programmes through our market leading solutions.

Here's a bit more background on us:

UKGI is an independent privately-owned consultancy business with more than 20 years' experience providing expert compliance support and advice. The business was established in 2004 when regulation began to be a significant focus for general insurance brokers and it has built an experienced team focused on the delivery of services helping insurance intermediaries to trade in this highly regulated environment.

In 2023, as part of the UKGI Group, UKGI merged with its number one competitor, RWA, to create one of the largest consultancies in the sector, enabling clients to get the best of both market leaders, with access to a wider choice of support, services and expertise.

UKGI currently employs over 55 people, serving a broad range of FCA regulated sectors including general insurance, healthcare insurance, consumer credit, funeral planning and claims management.

UKGI Learning Solutions is a market leading learning and development solutions provider with over 20 years' experience operating within the general insurance sector and in non-standard FCA regulated sectors.

Combining Searchlight Insurance Training, a business acquired by UKGI Group in 2020, and [The Development Zone](#) e-Learning platform, it offers a truly blended learning and training solution, helping clients maximise their people development opportunities at scale, and across multiple locations.

UKGI Learning Solutions specialises in delivering engaging and up-to-date learning courses across a broad range of development areas such as technical insurance skills, business & soft skills, compliance & regulatory skills, and leadership & management.

For more information on UKGI Compliance and or UKGI Learning Solutions please call 01925 765777 or email info@ukgigroup.com.
