

A New Level Of Premium Processing

Diestra is a next-generation reconciliation engine for the insurance industry

Brokers and Underwriters are too often held back by manual, frustrating premium processes

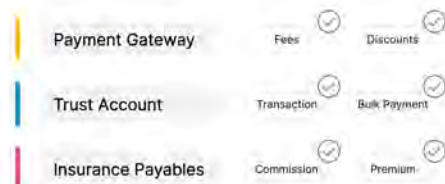

Diestra solves that by enabling premium automation, speed and transparency for **unrestricted growth**

Our **Vision** at Diestra is to help brokers and underwriters reduce the time spent on premium processing to 0!

Step 1: Effortless ingestion of all premium data (csv, pdf, api)

Derive sales insights from one source!

Step 2: Automated processes and streamlined operational engagement

Grow without back office restrictions!

Step 3: Full transparency and faster payments for everyone

Increase cashflow and service levels!
