

The Coalition Advantage

Coalition created the world's first active cyber insurance, designed to help prevent digital risk before it strikes.

ACTIVE CYBER INSURANCE IN ACTION

5 mins

Average claims
response time

52%

Incidents **resolved at no cost** to
policyholders, with zero erosion
of their policy limit¹

£72M

In fraudulent transfers
successfully clawed back²

Here's how we do it.

COVERAGE ADVANTAGE

Policyholder-Centric Cyber Coverage

STANDOUT COVERAGE FEATURES

£0 Retention When Using Coalition Incident Response

No out-of-pocket costs for digital forensics and incident response when policyholders use Coalition Incident Response (CIR).³

"Pay on Behalf" Language

Upfront costs for breach response, ransom payments, and other first-party expenses are paid on behalf of policyholders, helping them avoid large, unexpected out-of-pocket payments.

Separate Limit For Breach Response

Breach response is covered under a dedicated limit, preserving the main policy limit for major expenses like extortion payments and business interruption.⁴

CLAIMS ADVANTAGE

Proactive Response and Recovery

Our in-house claims, and affiliate incident response team³ are on deck 24/7 to negotiate with threat actors, conduct digital forensics, and claw back funds.

DATA ADVANTAGE

In-depth Insight into Evolving Risk

Coalition's Active Data Graph analyses cyber risk across the entire internet, monitoring threat actor behaviour, data leaks, and claims data to identify and help prevent attacks before they happen.⁵

SECURITY ADVANTAGE

Active Protection Throughout the Policy Lifecycle

With alerts from Coalition Control[®], even companies without dedicated security staff can strengthen their protection. Our Security Support team is readily available to help fix vulnerabilities and resolve contingencies.⁵
